

# Tiny but not trivial...

## Microscopy in Forensic Science

---

Wednesday, October 9, 2013  
4 to 5:15pm

Join us for the fall installment of our Forensic Science Lecture Series. Gina Londino, MS from the IUPUI Department of Chemistry and Clinical Biology, and Dirk Shaw, trace chemist at the Indianapolis-Marion County Forensic Services Agency, will discuss some history of microscopy in the forensic sciences, how it has been used recently in particular cases, how the work of each differs from the other's based on many factors including scope, resources, and purpose.

The lecture will be accompanied by our newest exhibit *Looking Through the Lens: Microscopy at the Indiana Medical History Museum*.

This program is free and open to the public but requires an RSVP to guarantee seating. For more information or to RSVP, please call 317-635-7329 or email [education@imhm.org](mailto:education@imhm.org).

The Forensic Science Lecture Series (FSLS), sponsored jointly by the Indiana Medical History Museum and the University of Indianapolis Archeology & Forensics Laboratory, was established in 2004 to help educate the public in the forensic sciences and related fields as well as to spotlight the fascinating stories that scientists have to tell.
